1. Objective

This User Acceptance Testing (UAT) Report summarizes the results of business validation for the TravelMate MVP.

The purpose of UAT is to verify that the delivered product satisfies the agreed business requirements and is ready for business release.

2. Scope

The following business capabilities were included in this UAT:

- Account Management
- Trip Management
- Collaboration

3. UAT Results Summary

Metric	Result
Total Test Scenarios	15
Total Test Cases	38
Passed	32
Failed	6
Pass Rate	84.2%

4. Defect Summary

Bug ID	Severity	Status
BUG-001	High	Fixed
BUG-002	Critical	Fixed
BUG-003	High	Fixed
BUG-004	Medium	Fixed
BUG-005	Medium	Fixed
BUG-006	Critical	Fixed

5. Business Validation

Requirement	Status
User Registration	Accepted
User Authentication	Accepted
Trip Creation	Accepted
Trip Management	Accepted
Collaboration	Accepted

Member Invitation	Accepted
Role Management	Accepted

Based on the completed User Acceptance Testing, the TravelMate MVP satisfies the agreed business requirements.

All critical business functionalities have been validated successfully.

No Critical or High severity defects remain unresolved.

The Product Owner recommends proceeding with the MVP production release.

6. Outstanding Issue

No outstanding critical issues remain.

All previously reported defects have been resolved and verified during User Acceptance Testing.

7. Business Decision

Based on the completed User Acceptance Testing, the TravelMate MVP satisfies the agreed business requirements.

No critical defects remain open.

The Product Owner recommends proceeding with MVP release.
